

Cross border travel into China and other areas of South East Asia has been nearly impossible due to Covid pandemic related travel policies. If you have product being manufactured in China, Vietnam, or other East Asian country and you need 3rd party inspections services during this time, please contact IDFL and we will promptly begin preparations to visit your factory.

WHY CHOOSE IDFL FOR INSPECTIONS?

RISK REDUCTION

The inspection risk is greatly reduced at IDFL because honesty is a founding principle. Our reputation gives you assurance that our data is honest, accurate and reliable.

IDFL has a zero-tolerance policy for corruption and bribery. Several unique internal programs help make sure that IDFL inspection teams are the best in the world.

PRODUCT FAILURE TRACKING

IDFL's online inspection database and reporting tools will give your company extraordinary insight and management of the inspection process. These tools will give your company access to all of its inspection reports.

Data points will include errors found per inspection, errors found per factory, inspections performed per factory, pieces inspected per inspection, and other inspection data.

HERE IS WHAT WE CAN DO FOR YOU

IDFL follows the standard AQL guidelines for inspection or custom client inspection protocols.

- **Pre-Production Inspection (PPI)**
- **Initial Product Inspection (IPI)**
- **During Production Inspection (DUPRO)**
- **Factory Inspections**
- **Final Random Inspection (FRI)**
- **100% Inspection**
- **Sterilization Inspection**
- **Customized Inspections**
